THE WIFE OF THE RUSSIAN CZAR

And There is Now a Coolness Between Their Majesties--The Czar Passes Through Germany Twice Without Noticing the Emperor---Why He Courts an Alliance With France.

Paris, Nov. 5 .- On Sunday the czar passed through Germany without stopping. He went from his yacht, the Polar Star, to the train which was in the station at Dantzig.

Did the railway employe who rang the last three signals to start, after the station master had cried in strident tones, which German travelers know so well, "Fertig!" understand that he was starting the politics of Europe on a new line where it might be derailed? It was scarcely probable, and yet history will not forget this train starting, for it is almost as important as the arrival of the French ironclads at Cronstadt, and we might say that all contemporaneous we might say that an contemporary is now made during voyages.

ANTIPATRY TO WILLIAM.

The czar, and there is no longer any doubt of it by any European diplomat, wished to show the antipathy with which William II. inspires him. In one month he has crossed Germany twice without exhibiting a desire to see the German sovereign. Last week Emperor William had offered to pay his respects to Emperor Alexander at Dantzig, although it was for the Russian emperor to go to Berlin, because the German emperor had been twice to St. Petersburg. The ezar positively refused to see the kaiser. Until the last moment diplomacy did its work, advances were made from various directions, but the exarremained immovable. Then, again, the weather was so bad that the Polar Star had to defer her departure from Copenhagen for two days. The exar preferred to take a voyage of ten hours by sea rather than one of three hours in order not to pass through Eerlin. doubt of it by any European diplomat, by sea rather than one of three hours in order not to pass through Berlin. THE REASON WILV.

The proof, therefore, is given that not only does the ezar not wish for the political friendship of Gernany, but he seems to wish personally to be on bad terms with the emperor of Germany. For this course there are two reasons. First, the ezar cannot forget the men-ner in which the emperor spoke to the czarina during the last voyage to St. Petersburg. The ezar is a family man in every sense of the phrase. He treats his wife with the most profound respect

Petersburg. The czar is a family man in every sense of the phrase. He treats his wife with the most profound respect. Emperor William, one evening, in the presence of the czarina, in an improper manner delivered himself of some messroom jokes, and instead of apologizing when the czarina looked coldly at him, he stupidly continued his stories. From that day, and even while Emperor William was the guest of Russia at Peterhof, the czar has spoken to him as little as possible. And his sentiments have not changed since. Recently, for political reasons, the emperor of Russia wished for an alliance with France. There is certainly known to be a paper in existence which he signed for reasons best known to himself, although they may not be comprehensible to the public. But whatever engagements he has entered into he will undoubtedly fulfil. He will avoid everything likely to hurt the feelings of France. The grand duke, now in Paris, said, "My brother is like a rock, and what has been said is the truth."

It is too much of an exaggeration to

think like the financial world of Paris and Berlin that war is near, but it ap-Russia and Germany will henceforth become impossible. This is a fact with which the political world will have to come. The czar is not passing through Ber

lin. Does the czar wish to have his hands free? On the German side everyhands free? On the German side every-body says thot the care wants peace, but if he wished for war nothing would prevent him declaring it. Now that he has shown in so startling a manner that there remains nothing of the traditional friendship which bound the Romanoffs and Hohenzollerns, the Dantzig train will not be forgotten in history.

Miners Will Ask for More Pay.

yesterday and decided to go on a strike for the increase of 10 cents a ton from 75 cents, refused by the operators, if the bituminous miners would strike for an increase from 70 to 75 cents. A committee was appointed to meet with the delegate convention of the bitu-minous miners next Saturday. The bituminous miners will join in the strike. The operators have no supply of coal and it is likely prices of the Indiana product, most of which is con-sumed in Chicago and the northwest, will be advanced.

Reducing Brewers' Wages.

San Francisco, Nov. 5 .- The Chronicle says that there will probably be a lock-out of brewers affecting four thousand out of brewers affecting four thousand men in a short time. The brewers claim that they cannot pay the present wages demanded by the brewery workmen's union, and their plan is to discharge all the union men now in the brewery and replace them by non-union workers simultaneously in every brewery in the state. Ten of the largest broweries on the coast are controlled by an English syndicate which has combined with outside breweries to reduce wages.

Another Cork Riet.
CORK, Nov. 5.—There was another serious election fight at midnight last night between the Parnellites and the McCarthyites. During the battle many people were injured and are now being treated at the hospital. Mr. Wm. O'Brien, M. P., and Mr. Thomas Con-don, M. P., were among the injured.

SAN FRANCISCO, Nov. 5 .- W. R. Strong & Co., one of the heaviest fruit shipping houses on the Pacific coast, with branches at Fresno, Los Angeles, Riverside and various eastern cities, yester-day made an assignment for the bene-fit of creditors. No statement given.

Trouble with Belt Employes.

Sr. Louis, Nov. 5 .- There appears to be serious trouble again brewing on the belt railway and a dangerous development of discontent among its employes. Six crows were discharged yesterday. The men claim that the officials are not Six crews were discharged yestorday.

made with them. They say that when Chief Arthur and Sargent were in St. Louis to settle difficulties, an agreement was drawn up by which engineers would receive \$3.25 and firemen \$1.90 for eleven hours work, all over time to be paid for at the rate of 37½ cents per hour for engineers and 21½ cents for firemen. The men claim that they are compelled to work frequently during the noon hour, for which they receive no compensation and refused to submit to it. John Scullin, it is understood, says that the company will live up to its agreement. The prevailing opinion is that the matter will be amicably settled.

TRAIN HELD UP And the Mail Car Robbed by Four High

OMARIA, NEB., Nov. 5.—Passengers on the Missouri Pacific train, which left Omaha at 10:30 last night were treated to an old-fashioned "hold up" at West End, a suburb, at 11 o'clock, Four masked men took charge of the train when it stopped at the station, on covwhen it stopped at the station, on covering the engineer and breman with a riffle while the others proceeded to plunder the train with drawn revolvers. They approached the coaches and ordered the passengers to throw their hands up. At the door they retreated and attacked the maftear. By threatening to blow open the doors with dynamite the messenger was induced to admit the robbers and the ear was plundered. The officers refuse to give any information as to the amount give any information as to the amount of booty secured, but it is said that large sums from Kansas City and St. Louis banks were secured. Officers went in pursuit. The robbers are on foot
